

Mapped, edited, and published by the Geological Survey and the National Ocean Survey and the National Oceanic and Atmospheric Administration. Control by USGS, NOS, NOAA, USCG, NCEP, and WSSC. Topography by photogrammetric methods from aerial photographs taken 1955. Field checked 1956. Revised 1965. Bathymetry compiled by the National Ocean Survey from tide-coordinated hydrographic surveys. This information is not intended for navigational purposes. Mean low water (dotted) line and mean high water (heavy solid) line compiled by NOS from tide-coordinated photographs. Apparent shoreline (outer edge of vegetation) shown by light solid line. Polyconic projection. 10,000-foot grid ticks based on Maryland coordinate system. 1000-meter Universal Transverse Mercator grid, zone 18 1927 North American Datum. To place on the predicted North American Datum 1983 move the projection lines 9 meters south and 26 meters west as shown by dashed corner ticks. Fine red dashed lines indicate selected fence and field lines where generally visible on aerial photographs. This information is unchecked. Red tint indicates areas in which only landmark buildings are shown. There may be private inholdings within the boundaries of the National or State reservations shown on this map. Revisions shown in purple compiled from aerial photographs taken 1977 and other sources. This information not field checked.
