

Produced by the United States Geological Survey in cooperation with the North Carolina Department of Environment and Natural Resources

Derived from imagery taken 1979 and other sources. Photospectroscopically derived data were used to identify and delineate wetlands. Survey control current as of 1981. Boundaries revised 2001.

North American Datum of 1927 (NAD 27). Projection and 10 000-foot ticks: North Carolina coordinate system (Lambert conformal conic).

1000-meter Universal Transverse Mercator grid, zone 17. North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software.

Short dashed blue lines indicate elliptical bay outlines visible on aerial photographs.

There may be private inholdings within the boundaries of the National or State reservations shown on this map.

CONTOUR INTERVAL 2 METERS
