

Produced by the United States Geological Survey Topography compiled 1976. Planimetry derived from imagery taken 1995. Survey control current as of 1976. Selected hydrographic data compiled from NOS/NOAA Charts 11327, 11328 and 11329 (1980). This information not intended for navigational purposes. North American Datum of 1983 (NAD 83). Projection and 1000-meter grid: Universal Transverse Mercator, zone 15 10 000-foot ticks: Texas Coordinate System of 1983 (south central zone). North American Datum of 1927 (NAD 27) is shown by dashed corner ticks. The values of the shift between NAD 83 and NAD 27 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software. This quadrangle covers a subsidence area. Water stages in this area vary with meteorological conditions. Approximate limits of occasional inundation shown by dashed blue lines where mean high water is undetermined for lack of visual evidence. Dotted blue lines indicate the approximate limits of low water. There may be private inholdings within the boundaries of the National or State reservations shown on this map. Landmark buildings verified 1976.
