SHEET 5674 III
SERIES E732

LEGEND
LEGENDE

LEGEND (LEGENDE) with symbols for roads, railroads, built-up areas, and terrain. Includes a CONVERSION GRAPH (ÉCHELLE DE CONVERSION) for depth and elevation, and a BOUNDARIES LIMITES (LIMITES) section.

ELEVATION GUIDE (ÉCHELLE DE TEINTES HYPSOMÉTRIQUES) showing contour intervals and a GLOSSARY (GLOSSAIRE) of symbols used in the chart.

SLOPE GUIDE (ÉCHELLE DE PENTE) showing a graph for slope percentages and degrees, and an INDEX TO ADJOINING SHEETS (INDEX DES FEUILLES ADJACENTES).

Prepared and published by the Defense Mapping Agency, Aerospace Center, St. Louis, Missouri. Includes title block information and date.

NOTES (NOTES) section providing technical details about the chart's projection and datum.

MAP INFORMATION AS OF 1990 and LIMITED REVISIONS AS OF 1994. Includes coordinate conversion tables.

CONTOUR INTERVAL 20 METERS (INTERVALLE DES COURBES 20 MÈTRES) and TRANSVERSE MERCATOR PROJECTION details.

NOTES (NOTES) section providing technical details about the chart's projection and datum.

ELEVATIONS IN METERS (ALTITUDES EN MÈTRES) section with a legend for road types and building symbols, and conversion instructions for magnetic azimuth.

INDEX TO ADJOINING SHEETS (INDEX DES FEUILLES ADJACENTES) and a technical block with a grid of sheet numbers and a legend for symbols.
