

GLOSSARY / GLOSARIO. A table listing symbols for features like 'Cacha' (pond), 'Datos insurrientes' (insufficient data), 'Departamento' (first-order administrative division), 'Isla' (island), 'Quebrada' (stream), and 'Rio' (river).

Prepared and published by Defense Mapping Agency Hydrographic/Topographic Center, Bethesda, MD. Includes logos and contact information.

LEGENDA / LEYENDA. A detailed key for symbols used on the map, including populated places, roads, railroads, boundaries, and vegetation.

ELEVATIONS IN METERS / ELEVACIONES EN METROS. A section explaining contour intervals (40 meters) and providing coordinate conversion formulas for WGS 84 to PSAD 56.

CONTOUR INTERVAL 40 METERS / INTERVALO DE CURVAS 40 METROS. A section explaining the 100-meter reference grid and how to use it for location finding.

BOUNDARIES / LÍMITES and ADJOINING SHEETS / HOJAS ADYACENTES. A section showing the map's location within Peru and its relationship to neighboring sheets.

ELEVATION GUIDE / GUÍA DE ELEVACIÓN. A section showing a vertical profile of the terrain with elevation markers in meters and feet.
