The limits of the exclusive economic zone of the United States are intended to be without prejudice to any negotiations with governments of neighboring countries or to any positions which have been or may be adopted respecting the limits of maritime jurisdiction in such areas.  
The Alaska Maritime National Wildlife Refuge consists of all the public land in the coastal waters and adjacent seas of Alaska consisting of islands, islets, rocks, reefs, coves and spires, as well as designated mainland areas. There may be private holdings within the boundaries of the National or State reservations shown on this map.
