ANTARCTICA SKETCH MAP
SAUNDERS COAST-MARIE BYRD LAND

Polar Stereographic Projection
Standard Parallel 71° S

Scale 1:500,000

Compiled by the Geological Survey in cooperation with the
National Science Foundation in support of scientific activities
of the United States Antarctic Research Program

Control by USGS 1959-1960

Compiled in 1965 from U.S. Navy tricamera aerial photography
1962-1965

This map is part of a sketch map series utilizing best source data
and control available at time of compilation. Features shown on
this map may be subject to redetermination when this area is
mapped as part of the 1:250,000 scale reconnaissance series

Names approved by the U.S. Board on Geographic Names

LEGEND

- Control (elevation in meters)
- Unmonumented control (elevation in meters)
- Intersected point (elevation in meters)
- Photo center
(USGS flight numbers as indicated)
- Penguin rookery (Adelie, Emperor)
- Ice free area
- Meltwater lake and stream
- Glacier flow
- Nunataks and peaks
- Moraine
- Ridge top with foot of slope
- Escarpment
- Slope
- Crevasses
- Islands (not plottable to scale)

Note: Absence of crevasse symbol does not necessarily
indicate a crevasse-free area

INDEX TO ADJOINING SHEETS

PHOTOGRAPHIC RUNS

TMA numbers above and in body of map identify each trimeter run used in
the compilation of this map. Numbers alongside open circles in body of map
locate center of vertical photographs selected with sufficient frequency to
serve as a reference index
