The East Asia Geographic Map Series has been prepared by the U. S. Geological Survey (USGS) as a contribution to cooperative programs with the Coordinating Committee for Coastal and Offshore Geoscience Programmes in East and Southeast Asia (CCOP). Maps in this series are for use in the compilation and display of geoscience, resource, and environmental information in East Asia, including the results of activities carried out under the Agreement for Cooperation between CCOP and the Circum-Pacific Council for Energy and Mineral Resources (CPCEMR), Michel T. Halbouty, Founder. Funds for printing the map series were provided by CPCEMR, particularly using a gift from Chevron Overseas Petroleum Inc. Copies of published maps are available from:
